Driving Pleasure

THE BMW 3 SERIES TOURING.

BMW EFFICIENT DYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

International version. Please contact your local dealer for country specific information.

A MODERN LIFESTYLE.

Into the city in the morning, to the gym in the evening, out into the countryside on the weekend. The BMW 3 Series Touring enables you to enjoy your lifestyle to the full. Its dynamic design, incomparable handling, superb functionality and innovative BMW EfficientDynamics and BMW ConnectedDrive technologies set standards in its class. And invite you to rediscover the world.

Editorial

A JOURNEY OF DISCOVERY FOR ALL YOUR SENSES.

There are many things that add spice to life. The new and the unknown in particular captivate our imagination: places we visit for the first time – the exhilaration of razor-sharp cornering on a breathtaking road – and a vehicle whose sporting and elegant design takes all our senses on a fascinating journey of discovery.

The BMW 3 Series Touring is your ideal partner here. Its versatility and advanced technology support your dynamic lifestyle. The latest-generation BMW TwinPower Turbo engines for example ensure outstanding performance combined with superb efficiency. And BMW ConnectedDrive innovations like the full-colour BMW Head-Up Display are unique in this vehicle category.

Using the distinctive design schemes implemented in the BMW Lines you can adapt the exterior and interior of your BMW 3 Series Touring to suit your personal preferences. And whether you choose the Sport Line or Luxury Line, there will always be a wealth of exclusive equipment details available that match each Line to perfection, enabling you to design the vehicle of your dreams. There is much to discover.

www.bmw.com/3seriestouring

Equipment of model shown: BMW 320d Touring with Luxury Line.

Engine:	BMW TwinPower Turbo four-cylinder in-line diesel engine
Max. output:	135kW (184hp)
Wheels:	18" light alloy wheels Turbine style 415 ¹
Exterior colour:	Mineral grey metallic
Upholstery:	Dakota leather Veneto Beige
Interior trim:	Finely Brushed Aluminium with Pearl Gloss Chrome accent trim

¹ Wheel available in combination with Lines from July 2015.

DISCOVERING THE SHAPE OF PERFECTION.

AN INSIGHT INTO THE WORLD OF GOOD DESIGN.

The history of the BMW 3 Series Touring began in the year 1987. The first Touring already combined all the virtues that still mark it today: optimum functionality, exhilarating dynamic performance, efficient engines, and – of course – sporting elegance. Qualities that also characterise the BMW 3 Series Touring.

The design of the BMW 3 Series Touring matches the lifestyle of modern man. Its most outstanding feature is its dynamic flair, with a sporty, low front blending into the sculpted tight surfaces and carefully placed lines of an athletic body that symbolises power. Exciting design elements that provide further accents include the twin headlights and BMW kidney grille. These now form a continuous visual unit, lending the BMW 3 Series Touring its distinctive character. Expressive eyebrows focus the car's gaze on the road. The result is an unmistakable face that immediately captivates the observer's imagination.

“AT REST AND MOVING
AT THE SAME TIME –
IS SUCH A DESIGN POSSIBLE?”

“A BMW 3 Series Touring should offer outstanding functionality, usability, and versatility. To translate these requirements into a sporty and elegant design was quite a challenge. But isn't that what makes automobile design so exciting?”

Michael de Bono, exterior designer for the BMW 3 Series Touring.

The sleek silhouette of the BMW 3 Series Touring exudes sporting elegance, down to the last detail. Short overhangs, a long bonnet, pronounced swage lines along the sides and the elongated roofline lend this car its confident and dynamic appeal. The subtle interplay of lines adds special interest, creating a modern design that appeals both to the sporty driver and to people who value making an elegant impression.

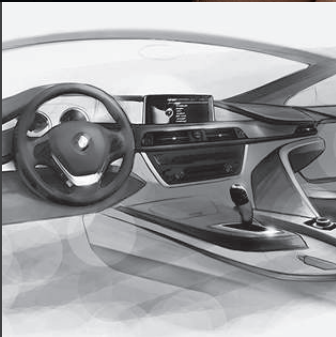

The designers of the BMW 3 Series Touring have succeeded in re-interpreting an established design language. The model's characteristic Touring proportions have been retained, but interpreted in a fresh, modern way. This approach can be seen especially clearly in the gently rising double swage line, the airy occupant cell and the powerful, athletic rear.

“WE FOCUS ON WHAT’S MOST IMPORTANT: YOU.”

“Our thinking is focused on the human being. In other words: a design must please the eye, but at the same time, the interior should also be highly functional, offering lots of space and supreme comfort. Everything from the first design sketch onwards is about emotions and functions that the customer will see reflected in every detail of the car.”

Christian Bauer, Interior Designer of the BMW 3 Series Touring.

How do you organise a space so that it feels light and airy? How do you focus on the needs of the driver? These are some of the questions that the interior designers investigated. And they found innovative solutions.

There are many ways to organise a space: modern or classical, functional or aesthetic, dynamic or light. In the BMW 3 Series Touring, the designers have achieved a symbiosis of all these components. The interplay of layered surfaces enlivens the entire interior, creating lightness. Elements such as the freestanding Control Display and the centre console, which is angled towards the driver, reinforce this effect. Rear-seat passengers experience a new sense of space: legroom has been enhanced, as has the versatility of the luggage compartment. The foldable, 40/20/40-split rear seat bench provided as standard enables transportation of skis or other bulky items with four people on board.

"A CAR OF MANY FACES."

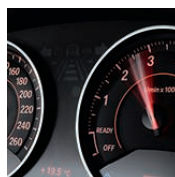

"A BMW must always reflect the individuality of its driver. The two Lines - Sport and Luxury - are directly based on recommendations by the Colour and Material Design team and enable customers to adapt the vehicle to their preferences."

Volker Schrem, Head of BMW Colour and Material Design.

Fascinating athleticism.

The BMW Sport Line. This design scheme underscores the sporting appeal of the BMW 3 Series Touring – for example using high-gloss black exterior trim elements and optional bi-colour 18" Double-spoke light alloy wheels. In the interior, red contrasting seams on the black Sport leather steering wheel for example and Coral Red accent trim create a sporty ambience that further emphasises the car's distinctive appeal.

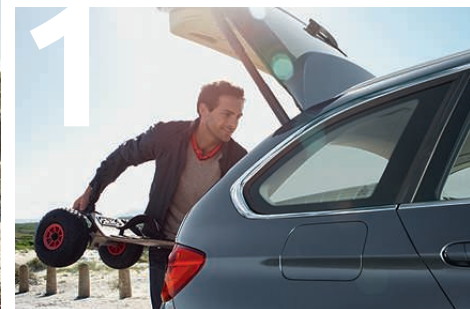

Luxury down to the smallest detail.

The BMW Luxury Line. The timeless elegance of this equipment line includes high-gloss chrome elements on the front, rear and side windows. The optional leather seats feature a fine grain and warm, elegant hues, combined with exclusive stitching. Stylish matching wood trims – optionally with inlay – are available to complete the look. That's unique in this class, ensuring that you make an outstanding impression.

15 MORE FREEDOM PER DAY.

Fifteen functions that make life easier.

Opening the doors of the BMW 3 Series Touring reveals a new sense of space and a fascinating world of handy functions and pioneering BMW ConnectedDrive technologies. Here is a brief overview.

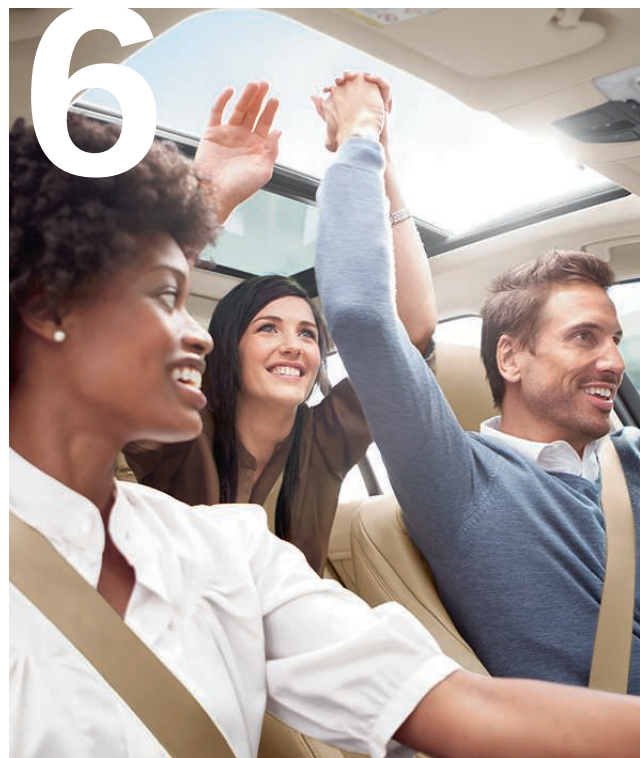

1. Room for lots of activities. Thanks to its increased width, the **luggage compartment** of the BMW 3 Series Touring has a capacity of up to 495 litres. This means it can take three golf bags or several large suitcases, for example, and can equally accommodate bulky items, such as a sandboard.

2. Flexible use of space. The **rear seatback** comes with a 40/20/40 split as standard, so luggage items of any size can be intelligently accommodated. Four people can travel with four pairs of skis on board, or you can safely transport a windsurfing sail. With the rear seats fully folded down, you have a total luggage capacity of up to 1,500 litres.

3. Open sesame. Everybody has been there: you want to open the tailgate, but you don't have a hand free. In the BMW 3 Series Touring you don't have to look for the car key first – with the **optional Comfort Access** by BMW ConnectedDrive, the tailgate opens and closes by itself. All you have to do is perform a quick, deliberate foot movement underneath the rear bumper.

4. A press of a button is enough. For convenient loading and unloading, the BMW 3 Series Touring includes **automatic operation of the tailgate as standard**. You simply use the radio remote control or press the handy button located near the bottom edge on the inside of the tailgate.

5. Always within easy reach. The **separately opening rear window** offers easy access to the luggage compartment, without having to open the entire tailgate. So accessing the luggage compartment to quickly add or remove an item is never a problem, even when parked in a tight parking spot.

6. Open skies. The ideal way to enjoy summer is with the windows down, and the optional **Panorama glass roof** open or raised, for added ventilation. Its large glass surface makes for a pleasant, bright interior. And if the sun should ever become too fierce, an electrically operated floating headliner can be deployed to shut it out.

7. In touch with the world. The optional **BMW ConnectedDrive Services*** offer a wide range of infotainment features, apps and the ability to select many additional options. Follow live Twitter feeds, interact with your friends on Facebook, or have your diary shown on the Control Display. An iPhone and the free BMW Connected app from the Apple App Store are enough to use these and other functions – and ensure that you can be reached on all channels even while travelling.

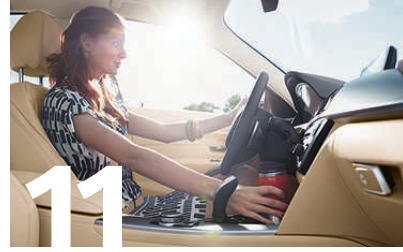

* May not be available in all countries. Please consult your BMW partner.

9

8. Shorten your journey time. Real Time Traffic Information* (RTTI) by ConnectedDrive Services allows you to avoid congested roads. This optional feature shows you the current traffic density in cities, on motorways and other roads practically in real time, and recommends alternative routes to your navigation system.

9. Take your office with you. Use selected smartphones to dictate your SMS and e-mails on the road, via Bluetooth¹. The optional **dictation function** by world-leader Nuance® automatically converts this into a text document that you can then send out. So you can even make profitable use of your way to work. In combination with the BMW ConnectedDrive Bluetooth Office function you can also have e-mails and short news items read out to you.

10. Things are looking up. With the **full-colour BMW Head-Up Display²**, your current road speed as well as important navigation, warning and entertainment messages are always within view. This optional BMW ConnectedDrive innovation projects all of these types of information directly into your field of vision, so you can always stay focused on the road.

11. A good place for a drink. The BMW 3 Series Touring offers you **several places to hold soft drinks as well as hot drinks**. Two cup holders are ergonomically integrated into the centre console, in front of the shift or selector lever. The door pockets in the front doors include a compartment for 1-litre bottles. So the driver and front passenger can always have coffee and water for example within reach.

12. Good entertainment. Musical entertainment is provided by the free **AUPEO!** personal internet radio app, which in conjunction with the optional ConnectedDrive Services adds customisable internet radio to your car for the first time. The music titles played adapt to your personal taste, in line with your desired genre and mood.

13. Three-dimensional city travel.* If you tend to use landmarks to find your bearings in cities, then you will enjoy the latest generation of the optional **Navigation System Professional**. Its high-resolution 3D map navigation available for many European cities guides you accurately through the high-rise jungle, using detailed images. Available as an option, the system includes a handy quick start function as well as a high-contrast 8.8" colour monitor that makes street names even easier to read. So you're always in the picture. (Navigation System Professional, Main menu, shown here).

14. The most efficient way to your destination. The optional New Generation Navigation System Professional enables you to select the particularly fuel-efficient **ECO PRO route**. Based on your individual driving style, the current traffic situation and the available route profile, the system calculates the most economical way to your destination. In vehicles equipped with a Steptronic transmission, you can also use the navigation data to optimise your gearshift strategy. You yourself can decide whether to follow these recommendations or not, based on the displayed fuel saving.

15. More freedom. All the functions and BMW innovations in the BMW 3 Series Touring have one thing in common. They give you more freedom and enhance your driving pleasure. For example by increasing dynamic performance and reducing fuel consumption and emissions at the same time, using BMW EfficientDynamics. Numerous equipment packages such as the Park Assistant package make life easier and more enjoyable. The BMW 3 Series Touring offers you all of these options for an active life, and many more.

¹ For information on the Bluetooth compatibility of smartphones and other mobile devices visit www.bmw.com/bluetooth

² Visibility is limited when wearing polarised sunglasses.

* May not be available in all countries. Please consult your BMW Partner.

Picturesque country roads rediscovered – thanks to sporty acceleration. Long drives through rural areas provide a perfect opportunity to enjoy the driving experience in the BMW 3 Series Touring to the full. Making sporty and elegant progress along tree-lined roads, you sense how its optional, innovative eight-speed Steptronic sport transmission makes optimal use of every rev range, changing gears smoothly and almost imperceptibly. The mighty BMW 330d Touring with 190kW (258hp)¹ of power for example accelerates from 0 to 100km/h in just 5.6 seconds. To experience even more driving enjoyment, use the Driving Experience Control, included as standard, to select SPORT mode; or, depending on equipment installed, SPORT+ mode. This optimises the transmission for sporty gear changes and makes the accelerator pedal respond more quickly. At the same time, in conjunction with the optional Adaptive M suspension, the suspension set-up stiffens significantly. It's qualities like this that make the BMW 3 Series Touring the best of its class in terms of dynamic performance – a vehicle that leaves a lasting impression.

¹ For information on fuel consumption and CO₂ emissions please see pages 68–69.

Right next to the ergonomically designed gear shift lever is the Driving Experience Control. This allows you to smoothly change into SPORT mode and read the current output and torque data on the Control Display of the optional New Generation Navigation System Professional.

BMW EFFICIENT DYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

Switching to ECO PRO mode reduces fuel consumption by up to 20 per cent.¹ This includes ECO PRO tips shown on the Control Display to help you drive more efficiently. A bonus range and fuel consumption history are shown as well, enabling you to see how efficiently you drive.

Intelligent technologies meet rugged beauty. The intelligent BMW xDrive all-wheel drive system ensures a uniquely dynamic driving experience with optimum power transmission and exceptional directional stability. In constant coordination with the Dynamic Stability Control (DSC) system, engine power is flexibly distributed between the front and rear wheels, depending on road surface conditions. This means that the wheel with the best traction gets the most drive power, for sheer driving pleasure in the BMW 3 Series Touring – in every bend, whatever the weather.

¹ Depending on individual driving style; determined as part of an internal BMW fuel consumption study.

Hooks and eyelets

Two hooks on the side walls serve as bag holders. Four lashing eyes are also included as standard and can be used to secure items.

Storage nets

Up to two nets on the side walls offer lots of storage space for items that should always be within easy reach.

SPACE GALORE!

Underfloor storage space

An additional storage space, ideal for safe transport of small items, is available under a hatch in the level floor. The hatch is reversible and has a non-slip surface on the other side, helping to prevent cargo movement during transport.

Separate load area cover

When it is not needed, the separate load area cover can be stored in the rear underfloor storage compartment.

Separate divider net

The divider net, which is provided as standard, is housed in its own cassette, independently of the load area cover. It secures the cargo when the rear seats are upright or folded down, protecting the vehicle's occupants.

Adaptive fixing system

The telescopic aluminium rod included in the adaptive fixing system enables flexible subdivision of the cargo space, using multiple fixing points. In addition, retractable straps are available to secure luggage items in place. And when the system is not needed, it can be stored under the luggage compartment floor, in the compartment designed to accommodate the load area cover.

BMW ConnectedDrive

So connected, you're free.

Our world is becoming more closely connected every day. BMW drivers are used to the fact that their vehicle and their world are connected – that they can request information, communicate via telephone or email and always be up to date while they're on the go. The BMW ConnectedDrive concept encompasses all the services and innovative technologies that network BMW vehicles and their passengers with the world outside and the traffic around.

BMW ConnectedDrive, with its intelligent services and assistance systems, is ready with all the right equipment. BMW ConnectedDrive Services & Apps offer more freedom by providing versatile connections between the driver, vehicle and outside world. BMW ConnectedDrive Driver Assistance systems make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

For more information, please see:

www.bmw.com/ConnectedDrive

CONNECTED DRIVE SERVICES.

Our everyday lives are becoming more and more connected. BMW drivers, however, enjoy better connections than most. They can source information, communicate by telephone and email, keep an eye on the traffic and generally stay up to date while on the move. The services that so effectively network BMW vehicles with the outside world are grouped under one term – BMW ConnectedDrive¹.

With the **ConnectedDrive Services**^{*} optional equipment, you can stay connected with everything that's important to you and the people you care about. Each and every function is designed to improve your overall driving experience. ConnectedDrive Services provide access to an astonishing array of services and apps – such as Facebook, web radio and message dictation.

^{*} May not be available in all countries, please consult your BMW partner.
¹ For further information on BMW ConnectedDrive please visit www.bmw.com/connecteddrive

The images shown here are equipment examples. Features are individually specific to every BMW. Depending on the model, the Control Display and presentation of content may differ.

BMW CONNECTED DRIVE SERVICES & APPS – INTELLIGENT CONNECTIVITY.

The **BMW ConnectedDrive Services & Apps*** – configuring them according to your individual needs is now quicker and easier than ever before. Listening to your favourite kind of music on every journey? No problem with AUPEO! personal internet radio.

AUPEO! PERSONAL INTERNET RADIO – CREATE YOUR OWN RADIO PROGRAMME.

With a smartphone and the free AUPEO! personal internet radio app you can make sure that you will only ever hear music that you like. Customisable internet radio adapts itself to your musical taste. Choose from over 120 music genres, to access a music library that currently comprises over one million songs. Use the “Love” and “Ban” buttons in the Control Display to define your musical preferences. The smartphone is connected to the car via the snap-in adapter or a cable recommended by BMW. This function requires the Navigation System Professional.

INTERNET – INFORMATION AT YOUR FINGERTIPS.

Whether you need to check the balance in your bank account, place a bid on eBay or look something up in Wikipedia, the BMW ConnectedDrive Internet option ensures that you can do whatever you need to do online. To enable you to surf to your heart’s content, the iDrive Controller in the centre console doubles as a computer mouse.

BLUETOOTH OFFICE – ALWAYS IN TOUCH.

Bluetooth Office enables BMW office functions such as e-mails, appointments, tasks, contacts and text messages to be shown on the Control Display or read aloud over the audio speakers using the read-aloud function. All compatible mobile end devices are listed at www.bmw.com/bluetooth.

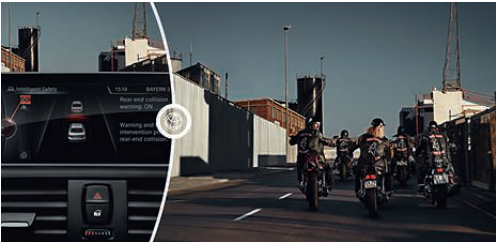

BMW CONNECTED DRIVE DRIVER ASSISTANCE – A CO-DRIVER WHO THINKS AHEAD.

BMW ConnectedDrive Driver Assistance includes innovative functions that enhance safety and convenience, maximising your driving pleasure. Knowing in advance what sort of bend is coming up next? The full-colour BMW Head-up Display tells you.

BMW HEAD-UP DISPLAY¹ – ALWAYS SEE WHERE YOU'RE GOING.

The full-colour BMW Head-Up Display¹ projects relevant information directly into the driver’s line of sight. This ensures the driver’s eyes stay on the road all the time. The Head-Up Display shows current speed, navigation directions, Speed Limit Info incl. no-overtaking indicator, Check Control functions and infotainment information.

DRIVING ASSISTANT – KEEPS THE RIGHT DISTANCE AND SAVES YOU FROM STRESS.

Driving Assistant combines the camera-based systems lane departure warning and collision warning. From a speed of approx. 70km/h, the system draws the driver’s attention to an unintentional lane change by means of slight vibrations in the steering wheel. Collision warning detects cars ahead and warns of an imminent risk of collision. Pedestrians are detected too, so the driver is warned of a potential collision and if necessary the brakes are applied.

NAVIGATION SYSTEM PROFESSIONAL – ALWAYS UP ON WHAT'S DOWN THE ROAD.

With a high-resolution 8.8" colour display, DVD drive, iDrive Touch Controller with direct menu control buttons, functional bookmarks, integrated hard disk (20GB) for audio and navigation data, 3D map display and RTTI* capability. Comes with extended instrument cluster and 5.2" Info Display.

* May not be available in all countries. please consult your BMW partner.
¹ Not fully visible with polarised sunglasses.

The images shown here are equipment examples. Features are individually specific to every BMW. Depending on the model, the Control Display and presentation of content may differ.

▶ **BMW EFFICIENTDYNAMICS.**
LESS EMISSIONS. MORE DRIVING PLEASURE. ◀

BMW EFFICIENT DYNAMICS – MAKING A LITTLE GO A LONG WAY.

For BMW, the focus is always on delivering quintessential BMW driving pleasure. The pioneering BMW EfficientDynamics strategy, used across the entire model range, supports this goal using innovative technologies that minimise the vehicles' fuel consumption and emissions while at the same time enhancing dynamic performance and driving enjoyment.

It's a comprehensive technology package that encompasses the engine, energy management and the vehicle concept – and is standard in every BMW.

The new generation of petrol and diesel engines in the BMW TwinPower Turbo family is responsible for the improved performance and the reduction in emissions. Optimised aerodynamics and BMW EfficientLightweight contribute to increased efficiency. The BMW intelligent lightweight construction concept is all about using the right material in the right place, in order to lower weight, increase rigidity and thus achieve maximum agility.

BMW is leading the charge in terms of innovation in this area and is the only major car manufacturer that uses ultralight and highly rigid carbon fibre (CFRP). BMW also focuses on forward-thinking drive train concepts such as the BMW eDrive technology with a 100% electric powerplant, as well as plug-in hybrid models.

Overall, the technology package encompasses a multitude of optimisation measures in every BMW. Other features such as the ECO PRO mode, the Automatic Start/Stop function, the optional eight-speed Steptronic transmission and Brake Energy Regeneration also contribute to reductions in fuel consumption and emissions, as well as enhanced performance and driving pleasure. Included as standard in every BMW.

THE BMW EFFICIENT DYNAMICS MEASURES IN THE BMW 3 SERIES TOURING AT A GLANCE.

Automatic Start/Stop function (for six-speed manual and all automatic transmissions). During brief stops, for example at a red light, the Automatic Start/Stop function automatically shuts down the engine to reduce fuel consumption. A display in the instrument cluster indicates that the function is active. The interior temperature remains constant even with the engine switched off, ensuring that comfortable conditions are maintained during longer stops.

BMW TwinPower Turbo technology. In petrol engines, this innovations package combines a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection. In diesel engines, it combines CommonRail direct injection and a turbocharger with variable turbine geometry. In this way, BMW TwinPower Turbo significantly reduces the fuel consumption of petrol and diesel engines – while at the same time raising power output across a wide range of engine speeds.

Brake Energy Regeneration. Brake Energy Regeneration means that the alternator normally only generates electricity when the driver takes his foot off the accelerator or brakes – making productive use of excess kinetic energy to feed the battery.

Aerodynamics. Thanks to wide-ranging and detailed aerodynamics optimisation, the BMW 3 Series Touring has an outstanding drag coefficient. This includes measures such as large-scale underfloor panelling and the Air Curtains in the front apron, which significantly reduce turbulence around the front wheels.

ECO PRO mode. This mode, available via Driving Experience Control, enables customers to achieve fuel savings of up to 20 per cent, depending on their individual style of driving.¹ It optimises accelerator and transmission response, and intelligently adapts the heating/air conditioning strategy. ECO PRO tips advise the driver to accelerate less abruptly for example. The bonus range shown by the on-board computer indicates how many additional kilometres the driver has gained thanks to the increased efficiency in ECO PRO mode since last filling up the tank. In combination with the New Generation Navigation System Professional and Active Cruise Control (both optional), the ECO PRO mode also includes the ECO PRO Route for a further reduction in fuel consumption and exhaust emissions.

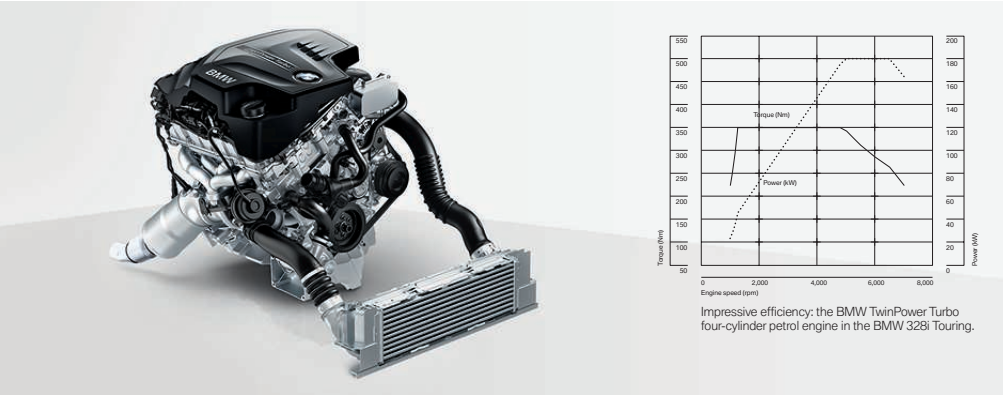

Optimum Shift Indicator. Shifting gears at the right time is one of the easiest and most effective ways to save fuel. This is where the Optimum Shift Indicator used in conjunction with the six-speed manual gearbox comes in. It shows the driver which gear to change to in order to save fuel. In vehicles equipped with a Steptronic transmission, the Info Display shows the current and the recommended gear in manual mode.

Eight-speed Steptronic transmission. The close spacing of gear ratios in the optional eight-speed Steptronic transmission enables maximum use of the optimum rev range, significantly lowering fuel consumption and enhancing shift comfort. In the BMW 3 Series Touring, it is combined with an Automatic Start/Stop function. In this way, the vehicle offers increased dynamism and ride comfort, combined with reduced fuel consumption and emissions (standard on 330d, 330d xDrive, 335i xDrive and 335d xDrive).

¹ Determined in an internal BMW fuel consumption study.

ENGINES WITH THE RIGHT VALUES. BOTH FOR ACCELERATION AND FUEL CONSUMPTION.

The petrol engines. Power, responsiveness and rewing ability characterise every BMW engine. Naturally, all the BMW TwinPower Turbo engines available for the BMW 3 Series Touring follow the BMW EfficientDynamics philosophy, aiming to combine maximum performance with maximum efficiency, minimising both fuel consumption and CO₂ emissions. Whichever engine you choose, you can be certain that you will enjoy maximum driving pleasure combined with superb efficiency.

BMW 328i. This BMW TwinPower Turbo four-cylinder petrol engine delivers its maximum torque of 350Nm from just 1,250rpm to 4,800rpm. Thanks to BMW TwinPower Turbo technology combining a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection, this 180kW (245hp) powerplant accelerates the car from 0 to 100km/h in just 6.0 seconds. Top speed is 250km/h, while average fuel consumption is 6.8–6.9 litres per 100km¹ (6.5–6.6 litres per 100km¹ with Steptronic transmission).

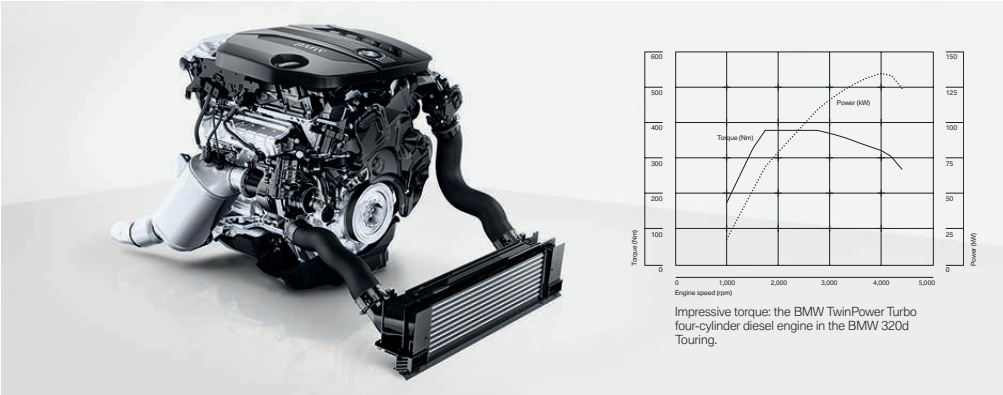

BMW 316i. The new 1.6-litre BMW TwinPower Turbo four-cylinder petrol engine combines a TwinScroll turbocharger, Valvetronic, Double-VANOS and High Precision Injection to deliver an output of 100kW (136hp) and a maximum torque of 220Nm. The TwinScroll turbocharger makes for a very fast response to the accelerator pedal, and a 0–100km/h time of 9.4 seconds. Top speed is 210km/h. BMW EfficientDynamics features such as the Automatic Start/Stop function and the Optimum Shift Indicator maximise fuel efficiency. The BMW 316i consumes just 5.9–6.2 litres per 100km¹. Average CO₂ emissions are 138–144g/km¹.

BMW 335i. This 3.0-litre BMW TwinPower Turbo six-cylinder in-line petrol engine combines a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection. This intelligent package of innovations lowers fuel consumption to just 8.1–8.2 litres per 100km¹, with CO₂ emissions of 189–192g/km¹, while enabling impressive performance: 225kW (306hp), a maximum torque of 400Nm and acceleration from 0 to 100km/h in just 5.5 seconds, with an electronically limited top speed of 250km/h.

BMW 320i. This 2.0-litre BMW TwinPower Turbo four-cylinder petrol engine combines a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection. This makes for powerful engine response combined with outstanding efficiency. 135kW (184hp) of power enable a maximum torque of 270Nm, acceleration from 0 to 100km/h in 7.5 seconds, and a top speed of 233km/h (228km/h with Steptronic transmission). Its average fuel consumption is 6.4–6.6 litres per 100km¹ (6.1–6.3 litres per 100km¹ with Steptronic transmission).

¹ Fuel consumption and CO₂ emissions depend on the selected wheel and tyre size. For further information see pp. 68/69 or contact your BMW partner.
² Only available as an xDrive model. For information on fuel consumption and CO₂ emissions of other xDrive models see p. 68/69 or contact your BMW partner.

The diesel engines. The seven diesel engines available for the BMW 3 Series Touring also feature BMW TwinPower Turbo technology, combining advanced injection technologies and fully variable output control with innovative turbocharger technology, for enhanced efficiency and dynamic performance. All available units have a lightweight aluminium design and come with a maintenance-free particle filter as standard.

BMW 335d xDrive.² The top diesel with BMW TwinPower Turbo technology has a maximum torque of 630Nm, available from just 1,500rpm to 2,500rpm. Its refined and extremely responsive six-cylinder in-line engine has an output of 230kW (313hp), enough to accelerate the car from 0 to 100km/h in a mere 4.9 seconds, with an average fuel consumption of 5.6–5.7 litres per 100km¹. The all-wheel drive system makes for an additional increase in traction and directional stability.

BMW 330d. This model is marked by maximum power and fuel efficiency. Its BMW TwinPower Turbo six-cylinder in-line diesel engine produces an output of 190kW (258hp) as well as 560Nm of torque available from just 1,500rpm to 3,000rpm. Acceleration from 0 to 100km/h takes 5.6 seconds, and top speed is 250km/h (electronically limited). Average fuel consumption is just 5.1 litres per 100km¹.

BMW 325d. This two-litre BMW TwinPower Turbo engine with an output of 160kW (218hp) features CommonRail direct injection, two sequential turbochargers and variable turbine geometry. It accelerates the car from 0 to 100km/h in 6.9 seconds and up to a top speed of 238km/h. Its 450Nm maximum torque is reached at just 1,500rpm to 2,500rpm.

BMW 320d. This 2.0-litre BMW TwinPower Turbo four-cylinder diesel engine produces an impressive 135kW (184hp) of power as well as 380Nm of torque, available from 1,750 to 2,750rpm. Acceleration from 0 to 100km/h takes 7.7 seconds (7.6 seconds with Steptronic transmission), and top speed is 230km/h (226km/h with Steptronic transmission). Average fuel consumption is a very efficient 4.7–4.8 litres per 100km¹ (4.7 litres per 100km¹ with Steptronic transmission).

BMW 320d EfficientDynamics Edition. This BMW TwinPower Turbo four-cylinder diesel engine, which produces an output of 120kW (163hp) along with 380Nm of torque, represents a milestone in fuel economy and emissions control. Thanks to a package of finely co-ordinated technological enhancements, like a modified engine set-up and a specially adapted Optimum Shift Indicator, this powerplant averages just 4.3 litres of diesel per 100km¹, along with CO₂ emissions of just 112g/km¹.

BMW 318d. This 2.0-litre BMW TwinPower Turbo four-cylinder diesel engine produces an output of 105kW (143hp) and a maximum torque of 320Nm. Its elastic power delivery is based on CommonRail direct injection and a turbocharger with variable turbine geometry. This enables acceleration from 0 to 100km/h in 9.2 seconds. The fuel consumption of this efficient engine is just 4.5–4.7 litres per 100km¹.

BMW 316d. The BMW TwinPower Turbo four-cylinder diesel engine in the BMW 316d offers a power output of 85kW (116hp), accelerating the BMW from 0 to 100km/h in 11.2 seconds (11.1 seconds with Steptronic transmission), and up to a top speed of 200km/h (198km/h with Steptronic transmission). The 270Nm maximum torque is available from 1,250 to 2,750rpm. Average fuel consumption of this engine is just 4.1–4.6 litres per 100km¹.

It's a quality that each and every BMW embodies: pure dynamic ability. The technical foundation of this exhilarating driving experience is the chassis. It ensures optimum road contact and ideal handling in every situation. It's the result of innovative, perfectly matched components and a 50/50 front-rear weight distribution. At the same time, BMW engineers continuously reinvent and refine the typical BMW driving dynamics. Every BMW chassis has the effect of transmitting a passion for sporty driving from the vehicle to the driver – while also offering maximum safety and comfort.

THE IDEAL BASIS FOR DYNAMIC PERFORMANCE. AN EXCELLENT CHASSIS.

The BMW 3 Series Touring offers a whole host of innovative technologies to help you get the most out of each drive. Many of these systems are intelligently linked with each other. Their interaction ensures that you can enjoy maximum driving pleasure, in maximum safety – on every straight, in every corner, every second of your drive.

The **Adaptive M suspension** electronically adjusts the suspension to suit the road conditions and driving situation at all times. The driver can also adjust the suspension characteristics via the Driving Experience Control to enable their preferred driving style at the time – from comfortable to extremely athletic with markedly agile handling.

Variable Sport Steering. This optional system works independently of road speed, varying the steering ratio in line with the steering angle. It includes the Servotronic function and reduces the steering wheel movement required to achieve a particularly tight steering angle. This enhances comfort when parking and manoeuvring, as well as sporting agility in tight corners and hairpin bends. For small steering angles, the system provides excellent directional stability and a very high degree of steering precision.

Body. The BMW 3 Series Touring, up to 40kg lighter than the predecessor model, has been designed for maximum rigidity, to enable outstanding dynamic performance. This ensures steering precision and agility, while also benefiting occupant safety. The front and rear sections include highly effective deformation zones. Should the car ever be involved in a collision, the body converts a large part of the impact energy into deformation.

Rear-wheel drive. This is at the basis of the hallmark BMW agility and manoeuvrability. At the same time, this drive configuration enables an ideal weight distribution across the entire chassis. This makes for perfect transmission of power and traction to the road.

Steering. Torque steer is completely alien to the BMW 3 Series Touring. With rear-wheel drive, the drive wheels are not the ones steering the car, so the power applied to them can never affect the steering. The steering is evenly weighted and does not harden, and steering angles are small. The result is that you can literally feel cornering speed and road surface condition. At the same time, electric power steering support contributes to reduced fuel consumption.

Driving Experience Control, incl. ECO PRO. This enables an individual adaptation of powertrain and chassis components, for example the steering, by selecting either COMFORT, SPORT or SPORT+ mode (available in conjunction with Steptronic sport transmission, Variable Sport Steering, Adaptive M suspension, Sport Line and M Sport package). The ECO PRO mode helps to minimise fuel consumption and displays the number of kilometres gained through more economical driving as a bonus range in the instrument cluster.

xDrive¹. The intelligent all-wheel drive system adapts perfectly to even the most challenging road surface conditions, always offering maximum traction. With xDrive and Dynamic Stability Control (DSC), the BMW 3 Series Touring remains directionally stable and controllable. xDrive flexibly distributes drive power to the front and rear wheels, performing lightning-fast adjustments to ensure optimum ground contact at all times. In this way, xDrive combines the advantages of all-wheel drive – traction, directional stability and safety – with hallmark BMW 3 Series agility.

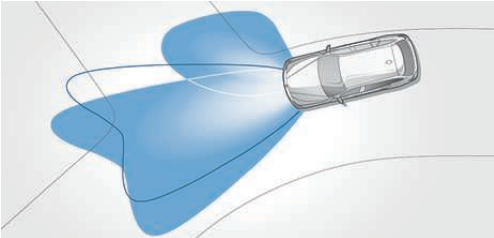

Eight-speed Steptronic sport transmission. This optional transmission adjusts to your style of driving – from comfortable cruising to a very dynamic experience indeed. To change gears, you can either use the shortened selector lever or the gearshift paddles on the Sport leather steering wheel. In SPORT mode, gearshifts are optimised for maximum performance. The close spacing of the eight gears optimises acceleration, while also maximising efficiency and shift comfort.

¹ Available for the BMW 318d, 320d, 330d, 335d, 320i, 328i and 335i models.

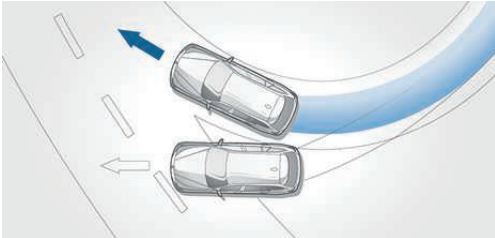

MORE SAFETY, MORE DRIVING PLEASURE.

The BMW 3 Series Touring features advanced technologies on which you can always rely. Superior driving characteristics and innovative equipment come as standard in this car. As a driver, you will be supported by state-of-the-art technology able to give you maximum support in any situation, making you feel safe no matter what condition the roads are in.

www.bmw.com/3seriestouring

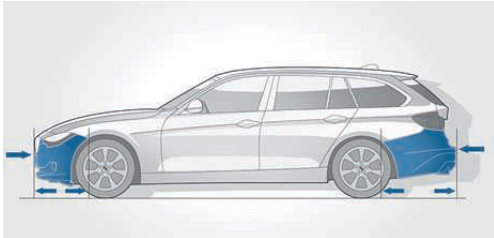

□ **Adaptive Headlights with variable light distribution**, including cornering lights and BMW Selective Beam (Anti-Dazzle High-Beam Assistant), ensure optimum illumination of the road ahead when cornering, thanks to swivelling headlights that follow the driver's steering wheel movements. Variable light distribution automatically adjusts headlight range, for example when moving from the city to the motorway. The cornering lights integrated in the fog lights become active automatically, even when the car is standing, as soon as the indicator is activated or the steering wheel turned.

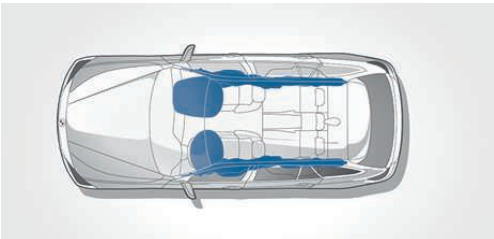

■ **Dynamic Stability Control (DSC)**, incl. Cornering Brake Control (CBC), hill-start and braking assistant, brake drying and brake stand-by. DSC recognises the risk of skidding from the start and stabilises the car within milliseconds. Traction Mode (DTC) is a subsidiary function of DSC and permits increased wheel slip, in order to maximise propulsion in specific situations and enable a sportier driving style.

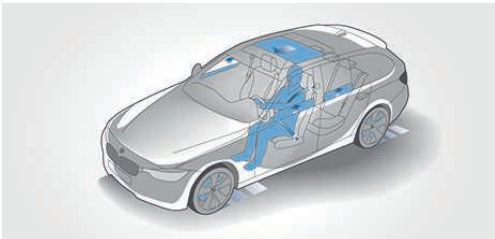

■ **BMW restraint system** for driver and front passenger: this combination of three-point seatbelt, belt tensioner and belt force limiter enables optimised restraint in the event of a collision. To ensure correct belt application on the rear seats, the belt latches are coded.

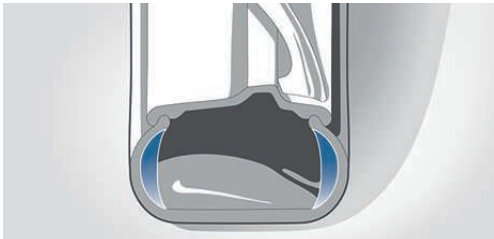

■ **Bumper system** at the front and rear includes replaceable deformation elements capable of absorbing impact forces in collisions up to a speed of 15km/h.

■ **Airbags** are part of the safety equipment in a BMW, all components of which are designed to complement each other perfectly. Six airbags offer specific protection: the driver and front passenger airbags, the front-to-rear (curtain) head airbags, and the side airbags integrated in the front seat backrests.

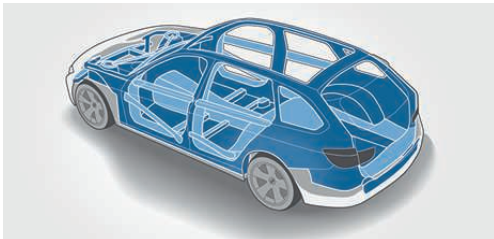

□ **Active Protection** adds a number of perfectly coordinated safety features to the BMW 3 Series Touring. In a critical situation for example, Active Protection tightens the front seatbelts and automatically closes open windows and the optional Panorama glass roof. Automatic braking is able to stop the vehicle automatically after a collision, thus mitigating or preventing follow-on collisions.

□ **Runflat tyres** feature reinforced side walls allowing them to maintain their shape and rim position even after loss of pressure (standard for 17" light alloy wheels and above). This means that you can safely reach the nearest garage.

■ The **tyre pressure monitor** warns the driver of any loss of pressure, using sensors to assess the air pressure and temperature.

■ **Occupant cell**: thanks to special support paths, node connections and the deliberate use of high-strength materials, the functional body design ensures a maximum of passive safety in the event of a front, side or tail-end collision. Defined deformation zones ensure that the body structure can absorb impact forces, thus protecting the occupants.

THE BMW 3 SERIES TOURING.

The cockpit with its centre console inclined towards the driver communicates typical BMW driver orientation. The radio Professional and a 6.5" flat panel colour monitor are already included as standard, as is the leather steering wheel with

multifunction, which ensures excellent grip. The optional automatic air conditioning with two-zone control and superb workmanship maximise the feel-good factor in the interior.

The interior shown here features the standard Move upholstery in Anthracite and Satin Silver matt interior trim. Numerous handy storage compartments, two cup holders in the centre console, and door compartments with enough room to hold 1-litre bottles are also included as standard in the BMW 3 Series Touring.

Depending on the engine selected, the BMW 3 Series Touring comes with 16" steel wheels with full wheel covers (316d, 318d and 318d xDrive), 16" light alloy wheels (320i, 320i xDrive, 320d and 320d xDrive), or 17" light alloy wheels (the illustration below shows the 17" light alloy wheel Star-spoke style 394, which is standard for the 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive; the illustration above shows the optional 17" light alloy wheel Star-spoke style 393).

THE BMW 3 SERIES TOURING WITH SPORT LINE.

Interior equipment features:

- Door sill finishers in aluminium, at the front with "BMW Sport" lettering
- Sport seats for driver and front passenger in Track cloth Anthracite, with Red or Grey accents, or
- in Dakota leather Black, with Red accents, or
- in Dakota leather Coral Red, with Black accents; other upholstery options available
- Sport leather steering wheel with red contrast stitching (optionally without contrast stitching)
- High-gloss Black interior trim with accent trim in matt Coral Red or
- Finely Brushed Aluminium interior trim with accent trim in matt Coral Red; other interior trims available
- Interior illumination with variable colour effects in Orange-Red or White – selected via the iDrive Controller
- Speedometer and rev counter with red Chrono scales and red contrasting ring
- Chrome trim for automatic air conditioning and radio controls
- Driving Experience Control, with additional SPORT+ mode
- Car key with Red trim

Exterior equipment features:

- 17" light alloy wheels Double-spoke style 392, or
- 18" light alloy wheels Double-spoke style 397 in bi-colour Ferric Grey, highly polished (standard on 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive)
- Front and rear bumpers with specific features in high-gloss Black, front air inlets with aluminium-look inserts
- BMW kidney grille with eight slats in high-gloss Black
- Exterior mirror caps in vehicle colour or optionally in high-gloss Black
- B-pillar and window uprights in high-gloss Black
- "Sport" lettering along the side
- Tailpipe trim in Black, chrome-plated
- Side window frames and window recess finishers in matt Black

BMW Individual:

The Sport Line can be perfectly complemented with equipment from the BMW Individual range (see page 46/47).

■ The sport seats for driver and front passenger provide exceptional support. The Track cloth upholstery in Anthracite with its contrasting Red (optionally Grey) seams and accents underscores the sporting appeal of this Line.

■ Door sill finishers in aluminium, at the front with "BMW Sport" lettering.

■ Car key with Red trim.

■ 17" light alloy wheels Double-spoke style 392 with 7.5 J x 17, 225/50 R 17 runflat tyres.

□ 18" light alloy wheels Double-spoke style 397 in bi-colour Ferric Grey, highly polished, with 8 J x 18, 225/45 R 18 runflat tyres (standard on 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive).

THE BMW 3 SERIES TOURING WITH LUXURY LINE.

Interior equipment features:

- Door sill finishers in aluminium, at the front with "BMW Luxury" lettering
- Seats in Move cloth Anthracite or
- in Dakota leather Saddle Brown with Exclusive stitching (lower half of instrument panel also in Saddle Brown); other upholstery options available
- Sport leather steering wheel
- FineLine Anthracite wood trim with accent trim in Pearl Gloss Chrome, or
- Burl Walnut wood trim with inlay and accent trim in Pearl Gloss Chrome; other interior trims available
- Interior illumination with variable colour effects in Orange-Red or White – selected via the iDrive Controller (with additional light source on the B-pillar)
- Chrome trim for automatic air conditioning and radio controls and additional exclusive chrome trim for the centre console
- Car key with Pearl Gloss Chrome trim

Exterior equipment features:

- 17" light alloy wheels Multi-spoke style 414 or
- 18" light alloy wheels Multi-spoke style 416, highly polished (standard on 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive)
- Front and rear bumpers with specific features in high-gloss chrome
- BMW kidney grille with eleven slats in high-gloss chrome
- Side window frames and window recess finishers in high-gloss chrome
- B-pillar and window uprights in high-gloss Black
- "Luxury" lettering along the side
- Tailpipe trim in high-gloss chrome

BMW Individual:

The Luxury Line can be perfectly complemented with equipment from the BMW Individual range (see page 46/47).

□ The seats covered in optional Dakota leather in Veneto Beige with Exclusive stitching create a premium ambience.

■ Door sill finishers in aluminium, at the front with "BMW Luxury" lettering.

■ Car key with Pearl Gloss Chrome trim.

■ 17" light alloy wheels Multi-spoke style 414 with 7.5 J x 17, 225/50 R 17 runflat tyres.

□ 18" light alloy wheels Multi-spoke style 416, highly polished, with 8 J x 18, 225/45 R 18 runflat tyres (standard on 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive).

THE BMW 3 SERIES TOURING WITH M SPORT PACKAGE.

Interior equipment features:

- Door sill finishers in aluminium, at the front with "M" lettering
- M leather steering wheel with multifunction buttons
- Sport seats for driver and front passenger in exclusive Hexagon cloth/Alcantara combination in Anthracite with M stitching and blue accents; other upholstery options available
- Aluminium Hexagon interior trim with accent trim in matt Estoril Blue or high-gloss Black; other interior trims available
- Interior illumination with variable colour effects in Orange-Red or White
- Speedometer and rev counter with red Chrono scales and red contrasting ring
- Driving Experience Control with additional SPORT+ mode
- BMW Individual roofliner in Anthracite
- Car key with blue trim
- M footrest
- Shortened gearshift lever (only in conjunction with six-speed manual transmission) with M logo
- Chrome trim for automatic air conditioning and radio controls
- Shift lever and handbrake lever gaiters in Walknappa leather

Exterior equipment features:

- 18" M light alloy wheels Double-spoke style 400 M with mixed tyres, or
- 18" M light alloy wheels Double-spoke style 441 M in Ferric Grey with mixed tyres, or
- 19" M light alloy wheels Double-spoke style 403 M in bi-colour Ferric Grey, highly polished, with mixed tyres, or
- 19" M light alloy wheels Double-spoke style 442 M in bi-colour Orbit Grey, highly polished, with mixed tyres
- M Aerodynamics package (front apron with larger air inlets, side sills with additional crease, rear apron with diffuser insert in Dark Shadow metallic)
- BMW Individual high-gloss Shadow Line, optionally satinated Aluminium
- BMW kidney grille with 8 slats in high-gloss Black
- M Sport suspension¹ or standard suspension or
- Adaptive M suspension
- M Sport brake, fixed-caliper brake, front/rear in dark blue with coloured M logo, larger brake disc
- "M" designation on the side (alternatively without designation)
- Tailpipe trim in high-gloss chrome
- Exclusive Estoril Blue metallic exterior colour

BMW Individual:

The M Sport package can be perfectly complemented with equipment from the BMW Individual range (see page 46/47).

■ The sport seats in the Hexagon cloth/Alcantara combination with M piping and contrast stitching in Royal Blue contribute to the interior's powerful looks. Shown here with the optional eight-speed Steptronic sport transmission.

■ Sporting appeal: door sill finishers in aluminium, at the front with "M" lettering.

□ M Sport brake, fixed-caliper brake, in Dark Blue with M logo, larger brake disc.

■ 18" M light alloy wheels Double-spoke style 400 M with mixed runflat tyres, 8 J x 18, 225/45 R 18 tyres at the front, 8.5 J x 18, 255/40 R 18 tyres at the rear.

□ 19" M light alloy wheels Double-spoke style 403 M in bi-colour Ferric Grey, highly polished, with mixed runflat tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear.

The expression of personality.

BMW Individual paint finish
Citrine Black metallic.

The BMW 3 Series Touring. Inspired by BMW Individual.

□ Driving a BMW is, in itself, a mark of character. There are those who still, however, want their vehicles to be even more individual reflections of their personality. The BMW Individual Collection and the BMW Individual Manufaktur meet these needs by opening up seemingly limitless opportunities for differentiation.

Precisely in tune with each model, the BMW Individual Collection offers a highly exclusive selection of equipment options. Fascinating paint finishes either refract the light or with a matt effect. Leather, unique in colour and scope of application, perfected with clever contrasts and decorative stitching. Interior trims in the most exclusive fine woods, the immaculate Piano finish and the finest leather.

And yet even this can be surpassed – thanks to the BMW Individual Manufaktur. Here, there is only one goal: realising almost any customer request, even the most personal, with stylish, hand-crafted perfection.

BMW Individual fine-grain Merino leather in Cashmere
Beige with elegant contrasting piping and stitching and
decorative braided pattern.

BMW Individual extended fine-grain Merino leather upholstery in Opal White
with fine-wood trim Ash Grain White.

These pages show the colours and materials available for the BMW 3 Series Touring. Use them to identify your favourite colours, or compare various combinations. These colour samples are meant to give you a first impression of paints and materials. Experience has shown, however, that printed versions of paint, upholstery, and interior trim colours cannot always faithfully reproduce the colour appearance of the originals. We recommend therefore that you consult your BMW dealer who will be happy to show you original samples and assist with special requests.

■ BMW Individual ■ Optional equipment □ Standard equipment • Recommended colour combination — Not available																											

Standard / Optional equipment.

- **Xenon Headlights** for low and high beam, with automatic headlight range control and headlight washing system. LED accent lights provide much better illumination of the road ahead at night or in poor visibility. The four LED light rings, cut off at the top and bottom, are used as daytime running lights.
- **Adaptive Headlights with variable light distribution**, incl. cornering lights and BMW Selective Beam (anti-dazzle High-Beam Assistant), illuminate the road ahead when the car enters a bend. The **BMW Selective Beam (anti-dazzle High-Beam Assistant)** performs infinitely variable control of the high beam in line with the traffic situation, for optimum illumination of the road ahead. It reliably prevents dazzling other drivers, for more relaxed driving.
- **High-Beam Assistant**, two settings, supports the driver at night by automatically switching to low beam when there is oncoming traffic or another car ahead, or when the road is sufficiently illuminated.
- **Headlight washing system** ensures optimum headlight brightness in all kinds of weather. When the lights are on, the headlights are automatically cleaned in parallel with the windscreen.

- **Dynamic Braking Lights** with flashing function help traffic travelling behind tell the difference between a light tap on the brake pedal and a hard stop – for increased driving safety.

- **Fog lights** positioned in the front apron to increase safety in bad visibility.

- **BMW Individual high-gloss Shadow Line** comprises features such as the front and rear side window frames, the B-pillar trim, the rear side window uprights, the exterior mirror frames and the mirror triangle in high-gloss Black (equipment included in M Sport package).
- **Exterior equipment in satinated Aluminium** includes side window frames in satinated Aluminium.¹

- **Exterior mirrors**, painted in body colour (Sport Line: available in optional high-gloss Black), electrically adjustable, aspheric on the driver's side, incl. heated exterior mirrors and heated screenwasher nozzles, with additional integrated LED indicator.

- **Rain sensor** with automatic driving lights control, automatically switches on the windscreen wipers when it begins to rain, adjusting the wiper frequency in line with rainfall intensity. The integrated automatic driving lights control will switch on the low beam automatically in the rain, at dusk and in tunnels (image includes other optional equipment).

- **Panorama glass sliding/vent roof**, electric; sliding front section can be raised; with wind deflector and comfort opening function via the car's remote control unit.

- **Roof rails, black:** this system is harmoniously matched to the vehicle design and provides a flat basis for a multifunctional BMW roof carrier unit which can easily and safely accommodate luggage, bicycles, or surfboards.

- **Roof rails, satinated Aluminium:** to enhance your vehicle's dynamic appearance, the roof rail system is also available in a low version in satinated Aluminium.

- **Exhaust tailpipes with chrome finish:** The 316i, 320i, 320i xDrive, 316d, 318d, 318d xDrive, 320d and 320d xDrive models feature a visible single tailpipe on the left.²

- **Tow bar** with electric fold-in and fold-out function (retracts completely) and stability control, for trailer loads of up to 1,800kg.

¹ Not available for the Luxury Line.
² The 328i, 328i xDrive, 325d, 330d, 330d xDrive and 335d xDrive have a twin tailpipe; the 335i and 335i xDrive have one tailpipe on the left and one on the right).

Standard / Optional equipment.

□ 18" light alloy wheels Turbine style 415, 8 J x 18, 225/45 R 18 tyres (wheels combined with lines available from July 2015).

□ 17" light alloy wheels V-spoke style 413, 7.5 J x 17, 225/50 R 17 tyres.

□ 18" light alloy wheels V-spoke style 398 with mixed tyres, 8 J x 18, 225/45 R 18 tyres at the front, 8.5 J x 18, 255/40 R 18 tyres at the rear.

□ 18" light alloy wheels Star-spoke style 396, 8 J x 18, 225/45 R 18 tyres.

□ 19" light alloy wheels Double-spoke style 401 with mixed tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear.

□ 17" light alloy wheels V-spoke style 395 with mixed tyres, 7.5 J x 17, 225/50 R 17 tyres at the front, 8.5 J x 17, 255/45 R 17 tyres at the rear.

□ 17" light alloy wheels Star-spoke style 394, 7.5 J x 17, 225/50 R 17 tyres (standard for 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d xDrive and 335d xDrive).

□ 17" light alloy wheels Star-spoke style 393, 7.5 J x 17, 225/50 R 17 tyres.

□ 16" light alloy wheels Star-spoke style 391, 7.5 J x 16, 225/55 R 16 tyres.

□ 16" light alloy wheels V-spoke style 390, 7 J x 16, 205/60 R 16 tyres (standard for 320i, 320i xDrive, 320d and 320d xDrive).

■ 16" steel wheels with full wheel covers, 7 J x 16, 205/60 R 16 tyres (standard for 316i, 316d, 318d and 318d xDrive).
□ Runflat tyres (standard for 17" light alloy wheels and above).

Luxury Line.

■ 17" light alloy wheels Multi-spoke style 414, 7.5 J x 17, 225/50 R 17 tyres (available only in conjunction with the Luxury Line).

□ 18" light alloy wheels Multi-spoke style 416, highly polished, 8 J x 18, 225/45 R 18 tyres (available only in conjunction with the Luxury Line, standard for 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive).

Sport Line.

■ 17" light alloy wheels Double-spoke style 392, 7.5 J x 17, 225/50 R 17 tyres.¹

□ 18" light alloy wheels Double-spoke style 397, in bi-colour Ferric Grey, highly polished, 8 J x 18, 225/45 R 18 tyres (standard for 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive).¹

□ 19" BMW Individual light alloy wheels V-spoke style 439 I with mixed tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear.²

□ 19" BMW Individual light alloy wheels V-spoke style 626 I with mixed tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear. Discreet, laser-engraved BMW Individual logo.²

M Sport package.

■ 18" M light alloy wheels Double-spoke style 400 M with mixed tyres, 8 J x 18, 225/45 R 18 tyres at the front, 8.5 J x 18, 255/40 R 18 tyres at the rear.³

□ 18" M light alloy wheels Double-spoke style 441 M in Ferric Grey with mixed tyres, 8 J x 18, 225/45 R 18 tyres at the front, 8.5 J x 18, 255/40 R 18 tyres at the rear.³

□ 19" M light alloy wheels Double-spoke style 403 M in bi-colour Ferric Grey, highly polished, with mixed tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear.³

□ 19" M light alloy wheels Double-spoke style 442 M in bi-colour Orbit Grey metallic with mixed tyres, 8 J x 19, 225/40 R 19 tyres at the front, 8.5 J x 19, 255/35 R 19 tyres at the rear.³

¹ Only available in combination with Sport Line.
² Not available in combination with M Sport package.
³ Only available in combination with M Sport package.

Standard / Optional equipment.

■ **Leather steering wheel** (375 mm diameter), three spokes, incl. shift lever handle and handbrake lever handle with leather finish.

■ **Multifunction buttons** for operating the telephone, voice and audio functions as well as the cruise control, incl. Speed Limit Info.

□ **Sport leather steering wheel** with multifunction buttons¹, three spokes, shift lever handle and handbrake lever handle with leather finish (standard with BMW Lines).

□ **Variable Sport Steering**, incl. Servotronic and SPORT+ mode. For agility and comfort when parking.

□ **M leather steering wheel**: the new design with multifunction buttons has more pronounced thumb rests and a thicker rim for enhanced grip; incl. shortened selector lever with leather handle and M emblem.

□ **Servotronic** for speed-dependent power steering support.

□ **BMW Individual Merino leather steering wheel**, following the design of the Sport leather steering wheel, with superior leather quality and thicker steering wheel rim.

□ **BMW Individual leather-covered instrument panel (XT1)**. Instrument panel top and upper-arm trim panels in Walknappa leather in the interior colour. Instrument panel bottom in fine-grain Merino leather in the BMW Individual upholstery colour. Contrasting seams in instrument panel top and bottom. Only in conjunction with BMW Individual fine-grain Merino leather.

□ **BMW Individual leather-covered instrument panel (4M5)**. Instrument panel top and bottom in Walknappa leather Black. Upper-arm trim panels not leather-covered. Only in conjunction with Dakota leather.

■ **Instrument cluster** with four analogue displays – speedometer, rev counter, fuel gauge, oil temperature, and Info Display. The latter shows data such as exterior temperature and on-board computer functions.

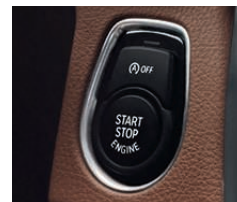

□ **Instrument cluster, extended**, includes a high-resolution Info Display showing functions for the Check Control as well as navigation prompts and operational feedback. With the ECO PRO mode activated, BMW EfficientDynamics data are displayed in the rev counter (standard in conjunction with Active Cruise Control, BMW Head-Up Display, and the New Generation Navigation System Professional).

□ **Cruise control with braking function** stores any desired speed upwards of approx. 30km/h and maintains it even when driving downhill. Includes multifunction buttons for the steering wheel.

■ **On-board computer** provides data on average speed and fuel consumption, current consumption, range, and exterior temperature. With the ECO PRO mode activated, the current bonus range is also displayed.

■ **Automatic Start/Stop function** automatically switches off the engine during brief stops, for example at a red light, to reduce fuel consumption. A symbol displayed in the rev counter indicates that the function is active.

□ **Active Cruise Control with Stop&Go function** incl. radar based Approach Warning and light-braking function. Combines speed control up to a selected speed of 210km/h with automatic control of the distance to the car ahead, slowing the car down to a stop if needed, and starting it up again in standard stop-and-go situations.

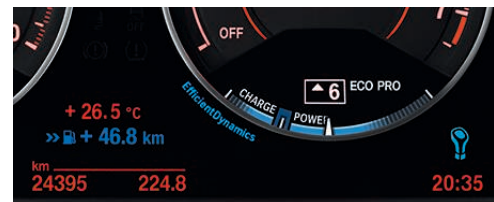

■ **Driving Experience Control incl. ECO PRO** enables drivers to choose between ECO PRO, COMFORT, SPORT, or SPORT+ mode at the touch of a button (SPORT+ mode depending on equipment installed). The ECO PRO mode promotes increased fuel economy. In combination with the Navigation System Professional and Active Cruise Control, the ECO PRO mode includes the Coasting function², Route-Ahead Assistant and ECO PRO Route – for even more fuel-efficient driving. On vehicles equipped with a Steptronic transmission, navigation data can be used to optimise the gearshift strategy.

■ **Storage compartments** in the front and rear doors, lidded storage compartment in the centre console at the front, open compartment under the front centre armrest and in the rear centre console, two cup holders, storage tray, and glove compartment.

□ **BMW Individual headliner Anthracite** with A-, B-, and C-pillar trims, sunblinds and roof grab handles in a sophisticated Black finish (included with the M Sport package).

■ **Optimum Shift Indicator** tells you when shifting to another gear would save fuel (in conjunction with six-speed manual transmission and Steptronic transmission).

□ **M Sport suspension³** lowered by 10mm, with sporty chassis set-up.

□ **The low-set Adaptive M suspension⁴** with variable damper control allows the driver to choose between comfortable or dynamic suspension settings.

□ **Eight-speed Steptronic sport transmission**, incl. a sportier gear selector lever and SPORT+ mode. Sport mode for even faster and more precise gear changes ensuring optimal dynamism – supported by the shift paddles on the Sport leather steering wheel (not available for 316i, 316d and 318d). Launch Control is available to ensure optimal acceleration of the BMW from zero to top speed.

□ **Eight-speed Steptronic transmission** with electronic gear selection and adaptive transmission management for relaxed and efficient driving (standard on 335i xDrive, 330d, 330d xDrive and 335d xDrive).

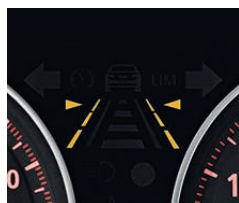

■ **Six-speed manual transmission** for a very sporty drive. Smooth, with perfect ratios and precise, short-throw gearshifts. The tight spacing of gear ratios means that you can make even more individual use of the engine's power.

¹ Image shows optional Cruise Control with braking function.
² Not available for 316i and 320i EfficientDynamics Edition.
³ Not in conjunction with BMW xDrive.
⁴ Not in conjunction with M Sport suspension.

Standard / Optional equipment.

□ **BMW Head-Up Display¹**, full-colour, incl. instrument cluster with extended functions, projects relevant data, such as the current road speed, directly into the driver's field of vision. For the first time, all BMW Head-Up Display data are shown in full colour, making information even more precise and easier to process. Navigation instructions, Lane Departure Warning messages, Speed Limit Info, Check Control as well as entertainment and communications lists can also be displayed (not in conjunction with windscreen with grey shade band).

□ **Lane Departure Warning** incl. camera based Approach Warning uses a camera to recognise whether the vehicle is in danger of swerving out of its lane, and alerts the driver immediately by making the steering wheel vibrate (part of the optional Driving Assistant).

□ **Lane Change Warning** detects vehicles in the driver's blind spot and vehicles approaching at speed in the adjacent lane when the driver has activated the indicator in order to change lanes. The system alerts the driver by making the steering wheel vibrate and by displaying a visual warning on the exterior mirror.

□ **Speed Limit Info with no-overtaking indicator** detects current speed limits and no-overtaking signs and shows them to the driver in the Info Display or the optional BMW Head-up Display (only in conjunction with BMW navigation systems and instrument cluster with extended functions).

□ **Interior mirror with automatic anti-glare function**, large surface area. The dazzle from following vehicles is automatically reduced when the amount of incident light exceeds a defined limit.

□ **Interior and exterior mirrors with automatic anti-glare function** and electric fold-in function for exterior mirrors.

□ **Alarm system** with radio remote control and anti-theft device for effective protection. In the event of an attempted break-in or unauthorised vehicle transport, the system emits acoustic signals and switches on the hazard warning lights.

■ **Integrated Owner's Manual** for quick and immediate access to all vehicle-specific information. The owner's manual can be navigated via the iDrive Controller and is shown on the Control Display. Depending on equipment, topics are presented using multimedia elements such as animations and dynamic illustrations.

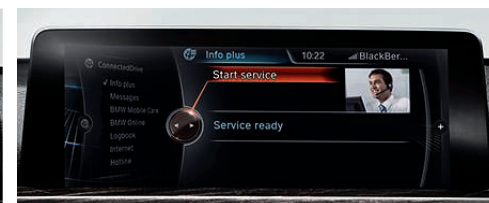

■ **Automatic air conditioning with single-zone control**, incl. microfilter. □ **Automatic air conditioning with two-zone control** includes Automatic Air Recirculation (AAR) with an active carbon filter, as well as fogging and solar sensors.

□ **The New Generation Navigation System Professional.** With a high-resolution 8.8" colour display, DVD drive, iDrive Touch Controller with direct menu control buttons, functional bookmarks, integrated hard disk (20GB) for audio and navigation data, 3D map display and RTTI* capability. Comes with extended instrument cluster and 5.2" Info Display.

□ **Navigation System Business**, with USB port, radio Professional, CD drive, iDrive Controller, functional bookmarks, fixed 6.5" black-panel colour monitor, 2D map navigation or combined arrow and map display.

□ **Concierge Service.^{3,*}** The BMW Information Service offers you individual support in selecting destinations and planning your journeys. BMW Call Centre staff provide detailed information and send addresses for route guidance directly to the navigation system.

□ **Real Time Traffic Information (RTTI)^{3,*}** precisely reports the current traffic situation in real time, based on route guidance systems as well as vehicle fleet and radio data. RTTI shows tailbacks and congestion on motorways, local routes and many urban roads and suggests efficient alternative routes.

□ **Comfort telephony with extended smartphone connectivity,^{4,*}** enables wireless in-vehicle connection of compatible mobile phones, incl. hands-free system (special charging tray available from BMW Original Accessories*). Operation via iDrive Controller, functional bookmarks or voice control.

□ **BMW Live** enables access to selected online content via the active Bluetooth¹ data connection to your mobile phone.

□ **Remote Services** are only available in conjunction with the optional ConnectedDrive Services.^{2,*} These enable operation of certain remote functions by the BMW Call Centre or via a smartphone using the My BMW Remote App – for example locking and unlocking the BMW, display of the vehicle location within a 1.5km radius, or activating the auxiliary heating.

* May not be available in all countries. Please consult your BMW partner.

¹ Visibility is limited when wearing polarised sunglasses.

² For further information on BMW ConnectedDrive contact your dealer.

³ Part of the ConnectedDrive Navigation package.

⁴ For further information (legal notes, compatibility) please visit www.bmw.com/bluetooth

Standard / Optional equipment.

□ **Park Distance Control (PDC)** front and rear or rear only, facilitates the process of parking and manoeuvring in confined spaces, giving you an acoustic signal and a visual indication in the Control Display for the distance between your car and an obstacle.

□ **Parking Assistant** makes parking parallel and perpendicular to the road easier. It does the steering while the driver remains in control of the accelerator, brake and gears.

□ **Rear View camera** shows a clear image of the area behind the vehicle on the Control Display. The Rear View camera enhances visibility when reversing at speeds below 20km/h, for example when parking. For models with trailer tow hitch, the rear view camera comes with an extended zoom function (available in conjunction with Park Distance Control).

□ **Surround View** offers the driver a good view of the area directly around the vehicle when manoeuvring. The BMW is represented as seen from above on the Control Display. **Side View** enhances visibility when joining a road from a side street or exit (available in conjunction with rear view camera).

□ **TV function.** The Control Display can be used as a television set when the vehicle is stationary, with the system providing access to digital television (DVB-T) channels (only in conjunction with New Generation Navigation System Professional).

■ **Hands-free system with USB port¹** for wireless connection of suitable Bluetooth mobile phones. The integrated USB port can be used to connect an audio source, e.g. an iPod or USB stick.
■ **AUX-IN port** for an external audio device such as an MP3 player.

■ **Radio Professional**, incl. 6.5" colour display, iDrive Controller with direct menu control buttons, CD drive and MP3 decoder.
□ **DAB tuner** offers a large selection of digital radio stations; reception in perfect sound quality across the entire broadcast area, supports DAB+.

□ **Harman Kardon Surround Sound System** with powerful 600W digital amplifier, equalizer, central speaker and 16 loudspeakers for truly outstanding sound quality. With premium wordmark trim made of anodised aluminium in the mirror triangles.

□ **HiFi loudspeaker system** with 205 Watt amplifier, vehicle-specific equalizing, and nine loudspeakers for a brilliant sound experience.

□ **Sport seats** (standard in conjunction with Sport Line and M Sport package) for driver and front passenger; electric backrest width adjustment for optimum lateral support. Seat length, seat height, backrest angle and seat angle as well as thigh support are manually adjustable (photo shows Sport Line with optional red contrast stitching).

■ **Standard seats** with manual adjustment of fore/aft position, backrest angle, and headrest height, incl. seat height adjustment for driver and front passenger seats.

□ **Lights package** includes the following LED lights: reading lights front and rear², vanity mirror illumination², ambient light front and rear², front footwell lights², luggage compartment light, ambient light in the front and rear door panels, exit lights as well as vicinity lighting in the door handles.

□ **Seat heating** for driver and front passenger, with multiple settings: seat surface, backrest, and sides are heated.
□ **Seat heating for rear seats**, with multiple settings: the seat surfaces and backrests of the two outer seats are heated (only in conjunction with leather upholstery).

■ **Cup holders**, two, ergonomically positioned in front of the gearshift/selector lever. The cover for the cup holders provides additional storage space and can be stored in the glove compartment to save space.

□ **Seat adjustment, electric**, for seat height, seat and backrest angle plus fore/aft adjustment. Memory function for driver's seat and exterior mirrors (incl. automatic parking function).
□ **Lumbar support** for driver and front passenger seat, electrically adjustable horizontally and vertically, for an ergonomically perfect seat position.

■ **Armrest at the front**, fixed, with integrated storage compartment.
□ **Armrest at the front**, adjustable, with integrated storage compartment.

□ **Rear centre armrest**, incl. two cup holders.

□ **Comfort Access system**, keyless vehicle access via the driver's door, front passenger door and tailgate. Includes vicinity lighting integrated into the front and rear exterior door handles and hands-free opening and closing of the tailgate via a quick deliberate foot movement under the rear bumper.

■ **Automatic operation of tailgate** enables you to open the tailgate via the radio remote control and to close it using the button on the tailgate or the remote control.

■ **Separately opening rear window:** for quick and easy access to the luggage compartment, the window can be opened on its own.

■ **Load area cover with comfort opening:** when the load area cover is in position and you open the rear window or tailgate, a simple hand movement is enough to make the cover move up automatically along a guide track to provide access. And it's just as easy to manually close it again.

■ **Load area cover**, complete with divider net, provides protection from prying eyes. It also keeps luggage items safe when the driver has to brake hard. The load area cover can be detached from the divider net and stored separately under the luggage compartment floor.

¹ For further information (legal notes, compatibility) please visit www.bmw.com/bluetooth

² Standard on 328i, 328i xDrive, 335i, 335i xDrive, 325d, 330d, 330d xDrive and 335d xDrive.

Standard / Optional equipment.

■ **ISOFIX child seat fastening system, rear.** Fitted on the two outer rear seats, this system enables safe child seat fastening using a snap-in mechanism. It also has additional upper fastening points.
 □ **Passenger airbag deactivation** via key switch on the passenger side, control lamp in the roof console.

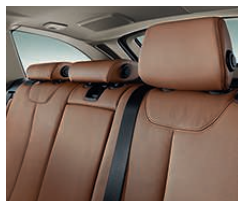

□ **Storage compartment package** including nets on the front seatbacks, 12V socket in the rear centre console, storage net on the left side of the luggage compartment, adaptive fastening system with aluminium rail (rail can be stowed away under the floor), reversible floor mat with protective coating, segmentable under-floor storage bin.

■ **Heat protection glazing** effectively reduces heat build-up in the vehicle interior in strong sunlight.
 □ **Windscreen with grey shade band** prevents drivers from being dazzled by the sun.
 □ **Roller sunblinds** for the rear side windows, mechanical.
 □ **Sun protection glazing** incl. tinted rear window and rear side windows reduces the degree to which the interior heats up in the sunshine, ensuring a pleasant temperature.

■ **Through-loading system** with 40/20/40-split folding backrest, rear centre armrest with two cup holders. A matching ski and snowboard bag is available from Original BMW Accessories.

□ **Rear headrests, folding.** If desired, all three rear headrests can be folded down for enhanced visibility.

■ **Personal Profile.** Depending on your equipment selection, your individual settings for temperature and air distribution of the automatic air conditioning, seat and exterior mirror positions, are saved by the vehicle and will activate when you open the central locking with your personal key.

□ **BMW Welt.** Taking delivery of a car at BMW Welt ranks among the best moments any driver can have. Come to BMW Welt for a truly unforgettable day, and enjoy a unique programme of activities tailored to your personal preferences. Find out more at www.bmw-welt.com

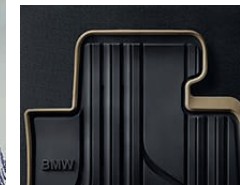

□ **BMW Service Inclusive.** No more costs for maintenance and wear. A single payment covers all BMW Service jobs, including Original BMW Parts. Worldwide from all participating BMW partners. For further details please visit www.bmw.com/serviceinclusive

Original BMW Accessories*.

20" light alloy wheels Cross-spoke 404 and roof box 460.

All-weather floor mats Black/Beige, perfect fit, dirt-repellent and water-resistant.

Ski and snowboard bag, available in different versions.

Tablet DVD system, consisting of two portable 7" monitors which attach to the headrest support bars.

BMW holder for Apple iPad, attaches to the front seat headrest support bars.

Rear storage bag, available in different versions.

BMW Junior Seat 2/3, available in two colourways.

A BMW always delivers a special drive – and Original BMW Accessories make the experience better still. Combining great ideas, immaculate design and sheer practicality to create innovative solutions, Original BMW Accessories are available in many categories: exterior, interior, communications & information and transport & luggage compartment solutions. Your BMW Partner will be pleased to advise you on the complete range of Original BMW Accessories and provide you with a special accessories catalogue. All dimensions in the technical drawings are given in millimetres. Luggage compartment capacity approx. 495 litres.

¹ The figure quoted includes a 90 per cent tank filling, 68 kg for the driver and 7 kg for luggage. Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

² Values may differ for xDrive models.

³ The overall weight of the trailer must not exceed the maximum permissible trailer load, taking into account the maximum permissible towbar download.

BMW recommends the use of 95 RON super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% may also be used. Output and fuel consumption figures apply to RON 98 fuel.

² All petrol and diesel engines including the 335d xDrive comply with the EU6 emissions standard (the 320d xDrive complies with the EU5 standard). Fuel consumption is determined in accordance with the ECE driving cycle made up of approximately one-third urban traffic and two-thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel

⁶ Fuel consumption and CO₂ emissions are dependent on the selected wheel and tyre size. Please consult your BMW partner for in-depth information.

⁸ Height with roof aerial is 1,449–1,467mm, depending on the model.

⁹ Depending on the model, the track width at the front and rear may differ from the figure quoted.

Values in [] apply to vehicles with 8-speed Steptronic transmission (standard on BMW 330d, 330d xDrive, 335d xDrive and 335i xDrive).

WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the **Condition Based Service** independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it's really necessary. When you do go, our **qualified**

BMW service specialists take care of your vehicle using the newest workshop technology and only **original BMW parts**. This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW SERVICE.

BMW Service Inclusive*: BMW Service Inclusive enables you to enjoy unlimited driving pleasure in your new BMW. You can select different coverage packages and various contract durations. Costs for maintenance, inspection and wear are covered for the entire duration of the contract. Of course, only Original BMW Parts will be used for any repairs. BMW Service Inclusive is not just effective in your country, but worldwide, at all participating BMW Service partners. For further information visit

www.bmw.com/serviceinclusive

BMW Mobile Service*: This service is there for you in case of a breakdown, day and night. Specially trained BMW technicians do everything necessary, on the phone or on-site, to get your car back on the road as fast as possible. We offer a comprehensive country-specific mobility package for breakdowns and insurance that covers you in the event of an accident or theft. And in case of an accident, call us at the BMW accident hotline! We'll take care of calling the police, an ambulance, a tow truck, a replacement car, notifying your insurance company and much more. For more information visit www.bmw.com

BMW TeleServices*: With Condition Based Service, you'll be automatically notified in the display of your next necessary service appointment. Provided you've consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW TeleServices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit www.bmw.com/teleservices

BMW FINANCIAL SERVICE.

BMW Financial Services: Tailor-made finance: BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit www.bmwfs.com or ask your local BMW partner to make you an individual offer.

THE BMW EXPERIENCE.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car's physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit www.bmwdrivingexperience.com

BMW Welt: A visit to BMW Welt is something you will never forget, whether you go to pick up a new car or just to enjoy the fascination of the brand. To collect a new vehicle, you can choose between three options: Premium Compact, Premium or Premium Plus. To enjoy BMW Welt online, simply visit www.bmw-welt.com/en

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

* May not be available in all countries. Please consult your BMW partner.

SHAPING THE FUTURE – RESPONSIBLY.

In 2013, the BMW Group was once again listed in the Dow Jones Sustainability World and Europe Indices and thus ranked one of the most sustainable automotive companies worldwide. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO₂ emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We're also aiming to reduce the amount of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Steyr has been waste-water free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our website.
